

Number 3 Bulletin of Komala Party:

**In protest to the regime forces crimes, the bazaar in the city of  
Mahabad  
was closed.**

The news we have received from Mahabad indicates that most of the shops in the city are closed. This closing is in response to the recent atrocity of the regime in Mahabad, killing of Shirko Amini. The shops in the city, especially those in vicinity of the crime scene are closed. Regime forces are cruising in the city in groups of four or five and have taken over some of the cross sections and public gathering places.

It must be mentioned that the regime forces after returning the body of Shirko to the family escorted them to the cemetery and let only a handful of family members to participate in the burial. The next day a huge number of people participated in his memorial program in one of the mosques in the city where the participants expressed their condolences to the family of the victim.

Komala one more time expresses its deep condolences to the family of Shirko and renew its commitment to the struggle against the Islamic Republic of Iran. Shirko was one of activist youth of Mahabad and now is the beloved son of all Kurds.

It has been said that people of the city are planning to close the shops and bazaar on Saturday in solidarity with the family and in a show of opposition to the regime's crimes and repression in Kurdistan.
